Summary

Results-driven Data Analyst with hands-on experience in SQL, Power BI, MS Excel, and Python for cleaning, analyzing, and visualizing large datasets. Adept at building interactive dashboards, automating reports, and deriving actionable insights to support business decision-making. Strong foundation in data storytelling, KPIs tracking, statistical analysis, and database management (MySQL). Seeking to contribute to data-driven teams in a dynamic and growth-focused environment.

Professional Experience

Data Analyst Intern,KultureHire   *APR 2025- MAY 2025*

- Utilize the Google Forms to gather career goals and learning preferences data for Gen-z
- Analyzed the collected Gen Z data using SQL Joins and aggregate Functions , using Excel pivot tables for analysis to extract valuable insights
- Designed interactive dashboards in Excel and Power BI, inserting pivot charts and slicers for enhanced visualization and filtering.

Technical Skills

- **Data Analysis and Visualization:** MS Excel(Pivot tables , charts), Power BI Desktop, Power BI Service.
- **Programming Languages:** Python(Pandas,Numpy),SQL.
- **Database Management:** MySQL.
- **Other skills:**Power Query,DAX ,KPI reporting,ETL,Data visualization,data cleaning,Business Intelligence
- **Soft skills:**Problem Solving.Critical thinking,Data Storytelling

Education

B.E. in Computer Science (AI ML)   *DEC 2021 – JUN 2025*
St. Mary's Group of Institutions, Hyderabad

Projects

BlinkIt performance analysis-Excel ⧉

- Designed an Excel-based sales dashboard to analyze Blinkit's performance across multiple cities and categories, covering 100% of transactional data
- Uncovered key business trends, such as Mumbai contributing 18% of total revenue and Baby Care products making up 20% of overall sales volume.
- Enabled faster decision-making through interactive filters and visualizations, increasing data accessibility by over 70% for non-technical stakeholders

Ecommerce sales analysis-Power Bi ⧉

- Developed an end-to-end Power BI dashboard to monitor YTD sales performance, customer behavior, and product trends across multiple regions and categories.
- Uncovered key insights including Top 3 categories contributing 60% of YTD revenue, and loyal customers driving 35% of repeat sales.
- Tracked critical KPIs like monthly revenue, profit margin, order returns, and customer lifetime value, enabling deeper business insights.
- Streamlined reporting with interactive visuals and real-time filters, reducing manual reporting time by 75% and improving stakeholder access to insights.

Certifications

- SQL(intermediate) -Hacker Rank ⧉
- Data Analytics Visualization – Accenture Virtual Experience (Forage) ⧉
- Data analyst certification - OneRoadMap ⧉
